FEMA 50% RULE

NOTICE TO PROPERTY OWNERS

*Rebuilding your Home after the storm?
Adding on, renovating, or remodeling your home?
Here's information **YOU** need to know about the "50% Rule".*

If your home or business is below the 100-year flood elevation, we have flood damage prevention regulations that may affect how you remodel, renovate, or add on to your building. If your home or business sustained structural and/or interior damage, these regulations may affect how you rebuild. These laws are required by the National Flood Insurance Program to protect lives and investment from future flood damages. Your community must adopt and enforce these laws in order for federally -backed flood insurance to be made available to we residents and property owners.

SAVE YOURSELF TIME AND MONEY!

PLEASE READ THE FOLLOWING INFORMATION:

SUBSTANTIAL DAMAGE means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed 50 percent of the market value or replacement cost of the structure before the damage occurred. (Note: The cost of the repairs must include all costs necessary to fully repair the structure to its "before damage" condition.)

SUBSTANTIAL IMPROVEMENT means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. If a building is "substantially damaged" or "substantially improved", it must be brought into compliance with the flood damage prevention regulations, including elevating the building to or above the 100-year flood elevation.

Our community, following the National Flood Insurance Program requirements, has the responsibility to determine "substantial damage" and "substantial improvement", and has implemented the procedures on the following pages to do so.

NOTICE TO PROPERTY OWNERS

(CONTINUED)

We will use the assessed value of your structure (excluding the land) recorded by the Property Appraiser's Office. If you disagree with the Property Appraiser's valuation of the structure, you may engage a property appraiser licensed by the State of Florida to submit a comparable property appraisal for the total market value of the structure.

You must obtain and submit to us a detailed and complete cost estimate for the addition, remodeling, reconstruction or for repair of all the damages sustained by your home, prepared and signed by a licensed general contractor. The contractor must sign an affidavit indicating that the cost estimate submitted includes all damages or all improvements to your home, not just structural. The signed contract document must be submitted with your application. If the owner is acting as his or her own contractor, the owner is responsible for submitting the cost estimate, and providing documentation, including subcontractor bids, to document the cost estimate.

We will evaluate the cost of improvements or repairs and determine if they are fair and reasonable. For damage repairs, pre-storm prices and rates will be utilized. The cost of improvements or repairs does not include items not considered a permanent part of the structure. (i.e., plans, surveys, permits, sidewalks, pools, screens, sheds, gazebos, fences, etc.-- see attached copy).

If your home is determined to have "substantial damage" or is proposed to be "substantially improved", then an elevation certificate must be submitted to us to determine the lowest floor elevation. Garages and carports are not considered to be the "lowest floor".

If the lowest floor is below the 100-year flood elevation, the building must be elevated to, or above, that level. Likewise, all electrical and mechanical equipment (heating and cooling, etc.), bathrooms, and laundry rooms must be elevated to, or above, the 100-year flood level. Only parking, building access and limited, incidental storage is allowed below the flood level. Non-residential buildings may be "flood-proofed" instead of being elevated.

If the lowest floor of the structure, including electrical and mechanical equipment and bathroom are already above the 100-year flood elevation, the building can be repaired and reconstructed without having to comply with the fifty percent (50%) rule.

Building plans must be prepared to show how the building is to be elevated. If located in a V-zone, Coastal High Hazard Area, or if the building is to be flood-proofed, these plans must be prepared and certified by a registered professional engineer or architect. Certificates for this purpose are available from the Building and Zoning Department.

IMPORTANT NOTE ON DONATED MATERIALS AND VOLUNTEER LABOR:

The value placed on materials should be equal to the actual or estimated cost of all materials to be used. Where materials or servicing equipment are donated or discounted below normal market values, the value should be adjusted to an amount equivalent to that estimated through normal market transaction.

Self or Volunteer Labor: The value placed on labor should be equal to the actual or estimated labor charge for repairs of all damages sustained the structure. Where non-reimbursed (volunteer) labor is involved, the value of the labor should be estimated based on applicable minimum hourly wage scales for the type of construction work to be completed. Our permitting official based on his/her professional judgment and knowledge of local/regional wage scales can provide additional guidance to determine reasonable labor rates for professional trades (i.e. electricians, plumbers, block masons, framing, HVAC).

ITEMS TO BE EXCLUDED

Plans and specifications

Survey costs

Permit fees

Debris removal (e.g., removal of debris from building or lot, dumpster rental, transport fees to landfill and landfill tipping fees), and clean-up (e.g., dirt and mud removal, building dry out, etc.)

Items not considered real property such as: throw rugs (carpeting over finished floors), furniture, refrigerators, appliances which are not built-in, etc.

OUTSIDE IMPROVEMENTS, INCLUDING:

Landscaping

Fences

Swimming pools\spa

Sheds

Detached structures (incl. garages)

Docks and Davits

Driveways

Sidewalks

Yard lights

Screened pool enclosures

Gazebos

Landscape irrigation systems

Seawalls

Decks

ITEMS REQUIRED TO EVALUATE YOUR APPLICATION

APPLICANT MUST SUBMIT ALL OF THE FOLLOWING (please check off each item):

1. **Completed and signed application** for substantial damage/improvement review (included in this package).
2. **Elevation certificate** if property is located above base flood elevation.
3. **Property Owner's Substantial Damage or Substantial Improvement Affidavit** signed, notarized and dated (included in package).
4. **Contractor's Substantial Damage or Substantial Improvement Affidavit** signed, notarized and dated (included in package).
5. **Estimated Cost** of reconstruction/improvement form (included in package) and all required backup. Include subcontractor's bids and itemized cost lists (see footnote on Cost Estimate Form).
7. Copy of **construction contract**. If the owner is the contractor, submit all subcontractor bids to document the cost estimate.
6. This **checklist**.
7. Copy of construction contract. If the owner is the contractor, submit all subcontractor bids to document the cost estimate.
